between the two places, and it is, moreover, the only establishment of its kind available for the Far East.

For the above reasons, we rear ectfully beg to urge that the granting of this petition, while it certainly would injura no sterests whatever, would, on the other hand con vi ute in a most important degree to the commercial interests and convenience of Hongkong, and the develop-

Of the above document, there can be little doubt that, however it may express the feelings of a few of the Chinese merchants interested, the memorial does not carry with it the support of the native merchants as a body. Indeed, we have reason to know that the petition first came to the knowledge of many of the leading Chinese after its publication. The style of the so called translation would appear to bear out the information which has reached us, to the effect that a foreign gentleman interested in Japan was the prime mover of this representation; for the petition above given has all the appearance of being an original document, while it bears no resemblance whatever to a translation from Chinese into English. This strong probability does not necessarily affect the merits of the question, whether the Japanese should be honoured with the duty of providing a coinage for this Colony, although it may have a certain bearing upon the way in which native petitions may be got up in Hongkong, and throw some light upon the movements of a well-known though only occasional mem-

Whether or not the legalisation of the yen in this Colony would meet with the approval of the foreign and native community, there is every reason to believe that it would be heartily welcomed by Mr Hennessy and his Japanese friends. In view of the fact that a slight sumplus has been given to the local trade with Japan by means of the new branch of the Mitsu Bishi line of steamers (which connects Osaka, the commercial capital, with this Colony), this desire is not an unnatural one. But it will be a question for the Home Government to consider whether it is prepared to permit Japan to supply a coin to this British possession which might at one time have been rendered unnecessary by the sanctioned coinage of a British dollar. The root of this movement doubtless lies in the visit of Mr Hennessy to the Osaka Mint, where the old Hongkong machinery now turns out a coin by no means unworthy of acceptation. As Sir Harry Parkes is now in England, H. M.

on important public matters. Hang firm, secured for his house the dire consequences of an action. We when a commission was appointed, con- to break the Ring." sisting of Mr Ryrie, Mr Linstead and Mr Tonnochy, to enquire into the real value of the Opium Farm, this ring. artfully supplied information which was anything but calculated to further the objects of the Commission or help the true interests of the Government. The Commission had a suspicion of this and was aware of the existence of such a combination, and in their report recommended that the Government, if unable to obtain a much higher price, had better take the boiling of opium into its own hands. From this extreme measure, however, the Government shrank, and the consequence was that the Opium "Ring" remained in possession of the field. With the arrival of Governor Hennessy, there was a new departure. There was about it, as there has been about a great many of Mr Hennessy's movements, an emphatic bid for popular applause, an unwholesome trickiness, that unsound policy that we have ever charged Mr Hennessy with. The facts were these. There had been a little equabble amongst the members of the combination, in consequence of which some information as to the real nature of the objects of that combination leaked out. Certain facts which reached Mr Hennessy led him to the conclusion, after these had been carefully weighed and tested, that the real yearly value of the Opium Farm was at least \$200,000 over and above what the Government was receiving for it; that is that, after allowing a broad margin and a handsome profit to the shareholders, the Government should fairly receive for the monopoly a largely increased rental, He (Mr Hennessy) brought up from Saigon one of his "fancy" loyal "British subjects," Mr Ban Hap, who was and is allied with the Company which had secured the opium monopoly in the Straits, at Saigon and elsewhere and it was understood that he was to tender for the Farm, and that the Governor's object would be accomplished if he got it and paid for it a higher price than had been previously received from the Farmer. When it became known to the "Ring" that an outsider had been called in from Saigon and invited to tender for the Farm in opposition to the local combination, some of the leading members of on the 20th August; to which may be - the Council of the Sun-I Company proposed to accede to the demands of the Government by offering a higher price for the Farm rather than allow the buciness to fall into the hands of a stranger This minerity in the Council of the Sun:I was headed by the chief partners of the gust, though the "Autumnal Equinox" five shops constituting the Yan Wo Company, but they were outvoted, and

Jan. 18. 1880. H.E. Chung How is back, and memorials pro and con are being showered in. The charge is directed estensibly against his having left St. Petersburg without leave, but doubtless secret enmity is directed against Russia. What the upshot of the Commission will be that is now sitting upon the one cannot fores e. China will surely be wise enough to keep out of a quarrel with Russia. Her neighbour will only be too glad to pick a quarrel and pocket Manchuria or what remains of it. The Chinese, in the matter of Ill, have just got what the Russians were willing several years ago to give.

Our first snow this winter is now falling and we hope we may get a good supply .-By-the-bye, Chung How was put back in time to be present at his wife's funeral. Misfortunes never come singly.

A very small business has been done in Bengal opium since the despatch of last mail. The low stock last noted being held by ten firms only, it can he hardly be said there was any market for the drug; whilst the near approach of the native new-year restricted business to but a few chests a day. and to no business at all on some days. Since the receipt of the month's supply, a couple of days ago, lower rates were accepted, but a few chests only were placed. The quotations are \$595 for New Patna and \$565 for New Benares.

The receipts for the month, so far, aggregate 4,121 chests, against 4,102 chests during the corresponding period last year, The quantity taken by the local consumers during the interval is some 100 chests only. against 1,800 chests at the corresponding interval last year, when the new year festivities were quite over. The stock is given at 3,750 chests, against 3,550 chests last year. Of this last quantity 1,000 chests were Benares, of which kind the present stock comprises 1,600 chests.

THE CHINA REVIEW. THE widely-expressed regret at the discontinuance of Notes & Queries on

China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

The China Review, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 50 octave reast occasionally taining about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, for annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History-Literature, Mythology, Manners and Cus, toms, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number, Original contributions in Chinese, Latins French, German, Spanish, Italian or Portugueso, are admissible. Endeavour. are made to present a resume in each works bearing on Chinese matters. Great attention is also paid to the Review der artment.

Notes and Replies are classified toge ther as "Notes" (head references bein given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August 1870, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for · the development of a State. All our learn ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, reportory of what scho lars are ascertaining about China. The lecture on Chinese Foetry in this volume i alone worth the price of the Review. Ad dress China Review, Hongkong.—Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the fol lowing notice of the China Review :- " Thi is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as i some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform ation, rendering some such chaunel of pub-licity as is now provided extremely desir-able; and contributions of much interest may fairly be looked for from the member of the foreign consular services, the Chines Customs' corps, and the missionary body among whom a high degree of Chines scholarship is now assiduously cultivated and who are severally represented in the firs number of the Review by papers highl a paper on Dr. Legge's She King, by th Rev. E. J. Eitel, to which the place o honour is deservedly given, an excellen summary is presented of the chronologics problems and arguments involved in cornexion with this important work. Some are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the elevent

translations from Chinese novels and play century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Lollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents in-cluding postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. . The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimater upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advar | B tiners are therefore unusually great, and K the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this descrip-tion—conducted by native effe. s. but progressive and anti-obstructive in tonein almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every ald that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.
